- Tools: Visual Studio 2022, VS Code, Git, GitHub, Azure DevOps, SSMS,
- Platforms: Azure Service Fabric, Power Platform, Dataverse
- Other: Swagger, Postman.

CERTIFICATIONS

- Infosys Certified .Net core web API Developer.
- Infosys .Net backend Developer.
- Infosys Angular Developer.

PROFESSIONAL EXPERIENCE

Infosys Ltd

Client: Exelon | PRCS Application| Role: .NET Full Stack Developer

Duration: Nov 2024 – Present

- Working on .NET 8 APIs supporting product ingestion, validation, and attribute normalization.
- Delivered new UI features using React.js and TypeScript, following component-driven design to meet client requirements.
- Contributing to payload optimization tasks such as trimming unused attributes and reducing token-heavy fields.
- Supporting API improvements including pagination, structured error responses, and adaptive card payload formatting.

- Collaborating with senior engineers on taxonomy fixes, testing cycles, and validation for upcoming releases.
- Managed source control and release artifacts using Git and assisted with sprint defect triage in Jira.

Citius Solutions Pvt Ltd

Client: LTM | Role: .NET Backend Developer

Duration: Jan 2023 – Nov 2024

- Built modules for retail inventory, stock tracking, and invoice generation using ASP.NET Core.
- Developed REST APIs, optimized database objects, and improved overall system performance.
- Optimized Core Web Vitals by applying code-splitting, caching strategies and image optimization, reducing page load time by 30%.
- Partnered with backend teams to resolve API contract and data consistency issues, validating end points with postman.
- Implemented secure authentication, exception handling, and code optimization.
- Contributed to sprint planning, grooming, and UAT/production bug fixes.

EDUCATION

B. Tech – MECH

Acharya Nagarjuna University, Guntur.
